

Air Quality Health Alert Banners

When ground-level ozone concentrations get dangerously high, air quality becomes a serious health matter. Keep your constituents, employees and/or students aware of unhealthy levels of ground-level ozone by hanging the Air Quality Health Alert banner on a wall that is frequently walked by on Air Quality Health Alert days.

The Air Quality Health Alert banner is made of sturdy nylon. A sample flag is shown above in the right-hand corner of this page. It is 3'x 5'.

Just complete the form below and you will automatically receive notification of potentially dangerous air the day before an Air Quality Health Alert is issued.

Name: _____

Organization: _____

Address: _____

Phone Number: _____

Fax Number: _____

E-mail: _____

Please specify the quantity you wish to purchase, then enter your total cost in the Total Cost line:

_____ 3'x5' Flags (\$ 20 ea.) _____ Total Cost

Mail this form to AACOG, 8700 Tesoro Drive, Suite 700, San Antonio, TX, 78217
Attn: Air Quality Health Alert Banners, along with a check made out to
"AACOG" for the total amount. Your flag will be delivered to you in approximately
two weeks and your Air Quality Health Alert notifications will begin immediately.
